

ENERGY WISE

for your Farm

Don't waste time and money on equipment upgrades that won't be beneficial to your operations in the long run. Your co-op is here to help you!

NEW FARM ENERGY MANAGEMENT PROGRAM IN 2018!

Participate in a new energy efficiency management program designed to assist all types of agricultural producers identify and prioritize energy efficiency opportunities. Receive an energy management plan, one-on-one technical assistance, personalized advice and support to help you make the best energy efficiency decisions for your operations – AND rebates are now available through your co-op to assist with the cost of the energy audit.

YOUR FARM, YOUR ENERGY PLAN, AND YOUR FUTURE

Your operation is unique and requires targeted assistance. This program will take the guesswork out of where to spend your time, money, and efforts when it comes to energy management.

Get an evaluation of your operation, equipment, and energy use that will provide you with:

- Objective, third-party information on practical ways to save.
- Simple, no-cost operational changes that can save you money.
- An energy audit tailored to your agricultural operations.
- Analysis of your energy use, which equipment is using the largest amounts of energy, and what can be done to decrease your energy costs.
- As a Cooperative Member, you are only responsible for 25% of the cost of the audit, the remaining 75% of the cost is being paid for by a grant received from the Rural Energy for America (REAP).

HOW DOES IT WORK?

Step 1 Call 800-441-8525 to verify eligibility and cost.

Step 2 Experts conduct a site visit and complete an energy audit that includes an in-depth analysis and recommendations via a comprehensive written, energy management plan.

Step 3 If you choose to implement energy efficiency upgrades as a result of the audit, contact your cooperative, as rebates may be available.
