

## REA COMMUNITY SOLAR – PHASE I

### REA Solar Output Buyback Schedule

The repurchase price will be determined based on the number of months elapsed from the in-service date of the solar panels. To calculate the repurchase price, the original \$1,300 license fee will be reduced by 1/240th for each month elapsed from the in-service date. The below table shows the price reduction, on a percentage basis, for each full year since the in-service date.

<b>Year</b>	<b>Percent of Purchase Price</b>	<b>Year</b>	<b>Percent of Purchase Price</b>
1	95%	11	45%
2	90%	12	40%
3	85%	13	35%
4	80%	14	30%
5	75%	15	25%
6	70%	16	20%
7	65%	17	15%
8	60%	18	10%
9	55%	19	5%
10	50%	20	0%
