Lighting Rebates Lighting Retrofit Rules & Information

Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

General Program Rules

1. The member is responsible for checking with the cooperative to determine funding availability and resolve questions on program rules and qualification of products.

2. Installation must be complete before application is submitted and rebate funds are issued.

3. Members and vendors must submit <u>itemized equipment invoices, rebate application</u>, and manufacturer <u>equipment specifications</u>. To ensure that the equipment installed meets the cooperative's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, as well as information regarding the manufacturer and model numbers for all equipment included in the rebate.

- 4. Rebates must be applied for within 12 months of invoice date.
- 5. The cooperative reserves the right to conduct random inspections of installations.

8. Illuminating Engineering Society (IES) light levels are recommended. A project falling below recommended levels may be denied a rebate.

9. The rebate shall not exceed 50% of materials cost OR project cost up to \$50,000 per member.

Lighting

• All prescriptive lighting rebates will be for equipment that is DLC or Energy Star listed. Equipment that does not meet this requirement can be rebated through the custom lighting program.

- Energy Star and DLC requirements must match the application of LED installations.
- ENERGY STAR or DLC or both will qualify a lamp or fixture for a prescriptive rebate.
- · Rebates are based on installed equipment of one-for-one replacement of incandescent fixtures,
- fluorescent T12 lamps and fixtures, or other fixture type that produce similar kW savings.

If the project is not a 1:1 retrofit, additional new lighting may be applied for under New Construction. A project with a reduction in fixtures can be applied for under Custom Lighting. If a project is a lighting redesign, a photometric layout is required and can be applied for under Custom Lighting.

 LED linear replacement lamps are based on a one-for-one replacement of fluorescent lamps. LED lamp must be DLC listed can be the follow types of lamps: UL Type A "plug and play", UL Type B internaldriver/line voltage, or UL Type C external driver

- Automatic controls must be permanently installed.
- LED exit signs rebates are for incandescent to LED only.
- LED Traffic Signals rebates are for incandescent to LED only.
