

## REA Community Solar - Phase II

### REA Solar Output Repurchase Table

The repurchase price will be determined based on the number of months elapsed from the in-service date of the solar panels. To calculate the repurchase price, the original \$1,200 license fee will be reduced by 1/240th for each month elapsed from the in-service date. The below table shows the price reduction, on a percentage basis, for each full year since the in-service date.

<b>Year</b>	<b>Percent of Purchase Price</b>	<b>Year</b>	<b>Percent of Purchase Price</b>
2018	95%	2028	45%
2019	90%	2029	40%
2020	85%	2030	35%
2021	80%	2031	30%
2022	75%	2032	25%
2023	70%	2033	20%
2024	65%	2034	15%
2025	60%	2035	10%
2026	55%	2036	5%
2027	50%	2037	0%
