## Let us answer your questions about **Cold Weather Shut-off Protection**

### **What is the Cold Weather Rule?**

The Cold Weather Rule protects some members from having their electricity shut-off due to non-payment between October 1 and April 30.

### **Can my heat be shut off in the winter?**

Yes. The Cold Weather Rule allows electricity to be shut off for non-payment. You will only be protected if electricity provides your primary source of heat AND you have done ALL the following things:

- » Your household income meets the state guidelines.
- » You receive referrals to energy assistance, weatherization, conservation, or other programs likely to reduce your energy bills from REA.
- » You have a payment arrangement with REA for which you make reasonably timely payments.

### **If my electricity has been disconnected, how can I be reconnected?**

In order to re-establish power, contact Runestone Electric for the total balance due, which will include additional fees and a deposit.

### **Will you disconnect me without my knowledge?**

No. You will receive a "Notice of Disconnection." The mailing will contain an income verification form for you to complete and return. There will also be a list of rights and responsibilities for you as well as REA and a list of agencies that may help you. If you receive a Notice of Disconnection, you MUST take the next step and call us. We do attempt to make phone calls if we have correct phone numbers. We will not shut-off electricity on a Friday, a weekend, or the day before a holiday.

### **What must I do to receive shut-off protection?**

If you are behind in your electricity payments, your first step is to call or email Runestone Electric Association. Please call **(800) 473-1722** or email [rea@runestoneelectric.com](mailto:rea@runestoneelectric.com).

### **We don't want to shut off anyone's electricity**

We will work with you to set up a payment arrangement or help you to see if you qualify for shut-off protection. Below is a list of energy assistance providers that can help with your energy bills. It is up to you to contact them for help.

### **Energy Assistance Program**

The Energy Assistance Program (EAP) is a federally funded program through the U.S. Department of Health and Human Services, which helps renters and homeowners pay for energy bills and heating system repairs. For example, a family of four could earn up to \$70,552 annually and qualify to receive financial assistance with energy bills.

To learn more about the EAP program or to apply for assistance:

- » Visit the Minnesota Department of Commerce Energy Assistance website, <https://mn.gov/commerce/consumers/consumer-assistance/energy-assistance/>
- » Contact your county EAP service provider. (See list below)

## Energy Assistance Providers

**Douglas, Grant, Pope and Stevens Counties:**  
West Central Minnesota Communities Action, Inc.  
(218) 685-4486  
1-800-492-4805

**Otter Tail County:**  
Mahube-Otwa Community Action Partnership, Inc.  
Detroit Lakes - (218) 847-1385  
Fergus Falls - (218) 739-3011  
1-888-458-1385

**Todd County:**  
Todd County Social Services  
(320) 732-4516

## A Note from your CEO

### Our experience with the Ford F-150 Lightning

Electric vehicles, commonly called EVs, are a hot topic in the news. Everywhere I go, there is interest in my views on the future of EVs and their potential impact on the grid. Here at REA, we took delivery of a Ford F-150 Lightning all-electric pickup last fall. Now that we've had it nearly one year, I thought I would share some things about our experience.

As I'm sure you've heard about most electric vehicles, the performance is impressive. Torque, acceleration, and handling are as advertised. We haven't done a lot of towing, but I'm sure expectations would be exceeded there, too. The cab is very similar to my personal F-150 and is easy to drive. Of course, like all EVs, there's a computer screen that provides vehicle information and controls some of the truck's features, but it's easy to navigate and understand.

We originally ordered the truck to replace one with a traditional internal combustion engine. The employee assigned to the vehicle works in the field planning our construction projects. The Lightning we purchased came standard with a battery with a 230-mile range that should have covered miles driven during an average day. Unfortunately, we quickly learned that cold temperatures, wind, computers, radios, and other electronics drastically impact the range of the vehicle. The maximum range of 220 miles on a 70-degree day dropped to 145 miles on a zero-degree day. Since charging during the work day wasn't an acceptable option for the job, we transitioned the truck into a more general use. This is the first lesson – have a good understanding of your use and be aware of an EV's range limitations.

EV charging is another important consideration. It is expected that most EV charging will take place in the home. REA has special electric rates for charging and rebates available for EV chargers. But, public charging will likely be needed from time to time. In our area, the public charging network is growing quickly. REA has been helping in this effort by using some of our Conservation Improvement Program funds to assist in adding charging stations to local Douglas County parks, including Kensington Runestone Park and Lake Brophy Park.

So here's the second lesson – if you are traveling outside the base range of the vehicle, some planning will be required to ensure working charging stations are located strategically along your route. There are resources like [www.plugshare.com](http://www.plugshare.com) that show public charging stations and their status. In the next year or two, there will be significant additions to the charging network. Just in the Alexandria area alone, three new locations are planned for construction.

Adapting well to a changing vehicle market and changes in energy needs requires working together. Rates and programs that benefit you, our members, while protecting the integrity of our system is our goal.

Our experience with the Lightning has been positive, and there are no complaints with the vehicle. But, when purchasing an EV, it is important to change the way you think about driving and be sure to choose the right EV for your situation. You will find our website, [www.runestoneelectric.com](http://www.runestoneelectric.com) and [www.energywisemn.com/evs](http://www.energywisemn.com/evs) helpful or stop by our office for more information.

#### MN Twins Play Ball Clinic

Over 100 boys and girls from around the area had fun learning baseball and softball skills from experienced coaches associated with the Minnesota Twins organization on August 5 at the Alexandria Area High School softball complex.

This summer marked the 63rd year the Minnesota Twins and the Twins Community Fund offered free youth baseball and softball clinics. Thanks to Alexandria Community Education for hosting the local event. Funding from the Twins Community Fund and Great River Energy, REA's power supplier, makes this event possible.

## REA Board of Director Meeting Highlights - July 2023

- » Reviewed the Financial Report for June 2023. Expenses for June were less than budgeted, and the gross margin was more than budgeted, both contributing to a positive REA margin. Energy sales & purchases for the year are close to budget estimates. The year-to-date REA margin remains under budget, with the timing of right-of-way clearing creating the largest variance.
- » Director Anderson and CEO Haman reviewed the STAR Energy Services Board meeting.
- » Discussed REA's contribution in aid to construction (CIAC) paid by members when building a new service. CEO Haman will present proposed restructuring of the CIAC at a future board meeting.
- » Updated the electric vehicle charging hours in the REA rate schedule from 11:00 p.m. – 7:00 a.m. to 10:00 p.m. – 6:00 a.m. as determined by GRE.
- » **The regular September Board Meeting will be Tuesday, September 26, 2023 at 9:00 a.m.**

**In Case of a Power Outage**

- » Please call 800-473-1722 for 24-hour service. Please report any tree branches in lines, twisted wires, broken poles and if your neighbors are also out of power.
- » Be sure to have a corded phone or a charged cell phone in the house, because cordless phones won't work when the power is out.
- » Program the number above into your cell phone for easy access.
- » Never assume we know you are without power. Always call to report an outage.

*REA will use reasonable diligence to furnish adequate and dependable electric service, but it cannot and does not guaranty continuous and uninterrupted service.*

## Is Your Contact Information Current?

Please keep your phone number(s) updated so we can contact you when we have a planned outage, payment reminders, capital credits or other co-op business. We recommend adding our number: **320-762-1121** to your contacts so you'll know it's REA and not a telemarketer.

**Update your phone number by calling the office at 320-762-1121 or send us an email at [rea@runestoneelectric.com](mailto:rea@runestoneelectric.com).**

## HARVEST SAFETY TIP

If your equipment makes contact with an energized or downed power line, contact us immediately by phone and remain inside the vehicle until the power line is de-energized. In case of smoke or fire, exit the cab by making a solid jump out of the cab, without touching it at the same time, and hop away to safety.
